

Johnson County 4-H Club Days

February 12, 2022 - FCS Judging

Total Points _____

Name **Answers** _____ Club _____ Age _____

I. Yes or No Questions – Write the correct answer in the space. (40 points)

- Yes 1. Colors can make you feel happy, sad, cold, or quiet.
- Yes 2. The primary colors are red, blue, and yellow.
- No 3. Colors are grouped together into color clusters.
- Yes 4. Texture describes how something feels.
- No 5. Shiny, smooth surfaces cause colors to create shadows and look darker.
- Yes 6. Tree bark is an example of a rough and bumpy surface.
- Yes 7. Neutral colors like black, grey, and white are not found on the color wheel.
- No 8. A tint is a color that has black added to it to make it darker.
- Yes 9. Another name for color is hue.
- Yes 10. Lines can outline a shape and cause your eye to move from place to place.
- Yes 11. A hue containing white is called a tint.
- Yes 12. Secondary colors are green, orange, and purple.
- No 13. If you mix black with any color it is called blackened.
- No 14. Rough textures absorb light.
- Yes 15. Lines have direction and action.
- Yes 16. Shiny surfaces can make a room seem like it is sunny inside.
- Yes 17. Diagonal lines such as lightning or leaning trees give an active feeling.
- Yes 18. When you are outdoors and your eye follows the horizon, you get a relaxed feeling.
- Yes 19. Cool hues contain blue and green and generate cool, relaxed feelings.
- Yes 20. Yellow, orange, and red are colors which are considered active, warm, and excitable.

II. Name the 7 colors of the rainbow and 3 neutral colors. *(20-points)*

Red	Indigo
Orange	Violet
Yellow	Black
Green	White
Blue	Grey

III. Textures can make your project interesting to look at and can change how colors look. Match the fabric sample number with the texture listed below. (Can use the same answer more than one time) *(20 points)*

Everyone got full credit for every question they answered. If it was blank, that was counted off.

_____ Smooth

_____ Sticky

_____ Soft

_____ Warm

_____ Rough

_____ Scratchy

_____ Furry

_____ Silky

_____ Shiny

_____ Crinkly

Samples were: faux leather (3), fleece, satin, netting and faux fur

IV. Lines & Shapes– Fill in the blank with the correct answer. (10-points)

This type of line suggests dignity and height. We see these lines in tall, narrow windows, tall plants, striped wallpaper, and columns on a house. _____Vertical_____

This line is restful and provides a strong, solid feeling. We see this type of line in low sofas, bookcases, and curtain rods. ___horizontal_____

These lines tend to be graceful and soften the effect created by straight lines. We see these lines in furniture, fabric patterns, drapery swags, arches, plants, and accessories. _curves_____

These lines create squares, and circles. This line is considered 2-dimensional. For example, a picture on a wall or a pattern on fabric. ___shapes_____

These lines form 3 -dimensional objects, like a lamp or a chair. ___forms_____

Possible words for Fill in the Blank:

curves	elements	narrow	forms	vertical	direction
slants	patterns	swag	shapes	horizontal	scale

Where you place color can visually trick the eye to think a room is shaped differently. Painted walls and ceilings can change the room proportions. Using the room photos match them to the correct type of room? (10-points)

Enlarge – F

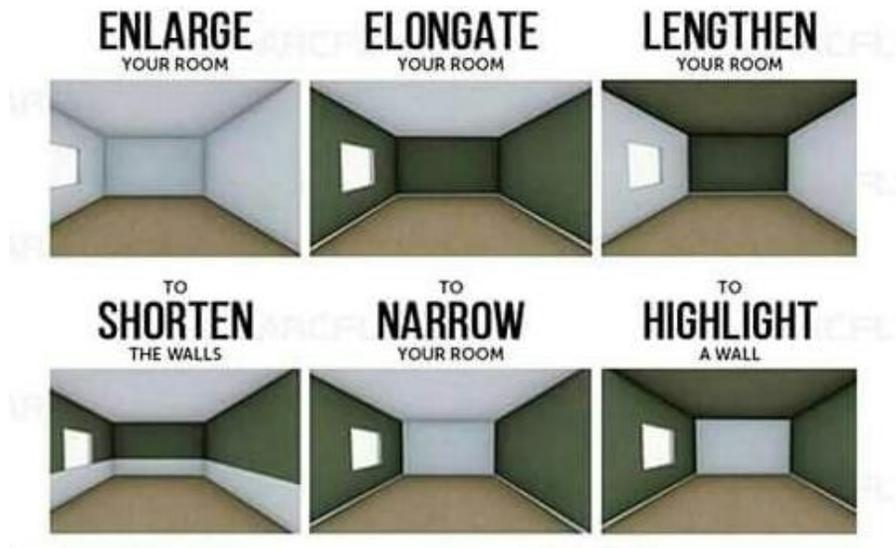

Shorten - E

Lengthen- C

Highlight - B

Elongate - D

Narrow A - (Bonus 5 points) Added if you got it right, otherwise it did not count against you.
