## Plant List and Pruning Guidelines

### from Maps as of 01/02/21

- A - Annuals**    **B - Bulbs**  
**E - Evergreens**    **G - Grasses**  
**H - Herbs**    **P - Perennials**  
**R - Roses**    **S - Shrubs**    **T - Trees**

**TBP - To Be Purchased**

#### Bloom Wood

- Flowers are produced on new (current season's) wood
- Flowers are produced on wood from past season; pruning before bloom will eliminate flowers
- Blooms on old & new wood

**NOTE for BG:** Month activity delayed - wait to see if the caterpillars come out before removing the foliage. However, the grasses need to be cut back before they start showing growth; cut the grass and leave in the garden in case of existing egg cases.

#### Bloom Time

- Prune after flowering if needed
- Mid-season sheer if formal hedge is desired
- Fall/early winter cut to ground
- Wait until new growth appears before pruning
- Ask First! Seldom requires pruning to control size

**DDD** means prune for **Dead, Dying, Damaged** - should be done at any time as needed

#### Pruning Guidelines - Shrubs & Trees

- Thinning Out Pruning** - select the oldest, woodiest stems in the shrub and completely remove to the ground. Remove no more than 1/4 to 1/3 of the total number of the branches in the shrub each year
- Do not cut into old wood (dead zone) that has no leaves or needles
- Cut Candles** (new growth) in half when needles are fully elongated - only when needed to control size
- Rejuvenate** plant by cutting to approx. 6 inches from soil level

#### Pruning Guidelines - Perennials & Grasses

- Cut Back** to just above ground level in Designated Month
- Remove dead / dying foliage
- Cut Back** to just above ground level after Peak Bloom
- Deadhead
- Cut Back** to 12-inch height
- Leave in Fall;** clean up in Spring
- Shake** to remove dead needles & use strong hose to dislodge
- Head Back** to lower side branch or outward facing bud to reduce height

#### GARDEN GALLERY PLANT LIST - 2020

These are Guidelines: Timing may need to be moved forward or delayed depending on weather, temps & actual bloom times
