

Facilitation Initiative Intensive Training (FIIT) Application

KANSAS STATE
UNIVERSITY

Extension

Join other extension agents, specialists and partners to dive deep into facilitative skills and tools over this three day training. Participants will work with peer leaders to identify a current/future situation where facilitation could be utilized, practice convergent and divergent facilitative tools and then conduct an extended facilitation with fellow participants to gain valuable feedback. This training is conducted by Extension Facilitation team members and is offered at no cost (including food, travel and lodging) to Extension faculty and staff. Please return completed applications to Deborah Kohl (dkohl@ksu.edu).
